JDBC CRUD Operation using Servlet and JSP

Database Table

Employee(id, name, address, phoneno, designation)

Insert Operation

insert.jsp collects employee details. InsertEmployeeServlet.java inserts record using PreparedStatement.

Update Operation

update.jsp takes Employee ID, Address, Designation. UpdateEmployeeServlet.java updates record by ID.

Delete Operation

delete.jsp takes Employee ID. DeleteEmployeeServlet.java deletes record using PreparedStatement.

View Operation

ViewEmployeeServlet.java displays all employee records.

Conclusion

This project demonstrates complete CRUD operation using JDBC, Servlets and JSP with proper separation of UI and logic.
